

**Standard and Feature Color Formulas**

The following formulas are presented as a method of getting a color match to Sun Standard and Feature Exterior Colors. These formulas are Sherwin-Williams formulas that can be reproduced at any of their stores nation-wide. Sun has no affiliation with Sherwin-Williams and does not necessarily endorse the use of their product over any other quality brand. The customer is solely responsible for the selection of the paint brand they prefer to use.

Note: These formulas are based on Sherwin-Williams A-100 exterior paint products in Gallon Formulas. Colors were formulated using color match scanning. Formulas may not be an exact match with all colors due to adjustments normally made during a physical color match.

Sun Windows - Sherwin-Williams Color Matching Formulas (Satin Finish, 1 Gallon Formulas) Originating Store #1395								
Group	Product	Description	Base
